Rating of Haulio

8/10

ABOUT AZON TRANSPORT

Established in 2019, Azon Transport provides container and project cargo trucking with their fleet of 4 trucks and drivers.

Haulio is proud to support Azon Transport in their haulage operations with our driver management tool – the Haulio Connectivity System (HCS).

Together, We Cargo Faster

Top 3 Things I Like about Haulio

Simple & Easy to Use

The Haulio platform is straightforward and easy to use.

Trip Forms

The HCS's inbuilt Trip Forms feature allows me to tally my drivers' completed trips for easy monitoring.

Easy Retrieval of Records

It's easy for me to retrieve details of completed jobs directly on the platform, instead of calling my drivers to verify.

Haulio's HCS (driver management tool) allows me to monitor my drivers easily.

Mr Zachary Quah
Azon Transport Pte Ltd

EXPERIENCE WITH HAULIO

What do you do at Azon Transport?

I started Azon Shipping, a freight forwarding company, with my partner Zachary Quah. Soon, we decided to set up a transportation arm, Azon Transport, to support our trucking needs.

At Azon Transport, I oversee the day-to-day activities of my drivers as a controller, as well as manage sales and business development. Overall, I manage a fleet of about 4 drivers and trucks.

How did you get to know Haulio's HCS?

There are two other available solutions in the market today – the MDT and eCTS. A fellow haulier introduced us to the MDT, however it was an analogue device and we wanted something more digital. Compared to eCTS, Haulio's HCS did not require us to purchase separate devices for each of my drivers, or make a big down payment. We went with Haulio's HCS in the end as it was **the most value-for-money and easy to use**.

How has the HCS helped you?

As a control, I can log into the cloud-based system to inform my drivers when issues arise. The industry is also complex very dependent on paper documentation. The HCS helps to **simplify my operations through features like Trip Forms**, where I can monitor my drivers and record their completed trips for easy tallying or information retrieval anytime.

Will you continue using Haulio in the foreseeable future?

Yes, we will. I have been recommending Haulio's HCS to others, even my existing haulier friends. The support from the Haulio team is very prompt, and they are also continually upgrading their solutions to make it easier for us to use. We will definitely continue to support Haulio.

Let's talk.

At Haulio, we place our partners at the heart of what we do.
